

Microsoft Access Training Courses

Creative Mentor Training provides Microsoft Access Training for people of all skill levels. Our Microsoft Access courses are the perfect way to gain the skills needed to easily create database applications. Our Microsoft Access courses are both hands on and practical, we have you working away using the skills you have learned for the entire duration of the course. There is even time for some one on one attention in class to help you fine tune your databases.

Things you need to know

- Free course re-sit on all introductory and advanced public training
- Comprehensive online resources including documentation and video tutorials
- Free after course support via phone and email
- Take your course on your choice of Mac or PC computers
- We never cancel scheduled training courses
- Class time: 9am - 4:30pm
- Average class size 3-5
- All students receive a certificate on completion

Custom Training Solutions

- We can also arrange training on-site at your workplace
- Custom training solutions can be arranged based entirely on your company
